

# SCRIPT: School Board Public Comment

How to use: The following script can be used to help you organize your thoughts on a topic you plan to speak about at a school board meeting.

- State your name (*there is no legal requirement to state your address*)
- I am here to express concerns about \_\_\_\_\_ in our schools.
- **EXAMPLES:** It is very impactful to provide examples or supporting information for your concerns.
  - (list examples here)
- My child shared with me that \_\_\_\_\_ is happening and as a parent and community member, I am NOT okay with this.
  - (list your reasons why here)
- It is important that the public, the board and the administration hear that this is happening and hear how we as parents feel about this.
- What are the next steps that I can expect you as a board to take action on this?
