### FOR IMMEDIATE RELEASE

President Trump's Dept. of Education ENDS Biden's "Book Ban hoax".

[Read the story here.](#)

For nearly 3 years, parents, grandparents, and community members have fought to protect Fisd children from sexually explicit materials. The Biden DOE threatened to sue and bring lawsuits against school boards that removed sexually explicit books. ***The woke DOE is gone.*** It is time for Fisd to remove sexually explicit books from classrooms and libraries.

To date, hundreds of sexually explicit and age-inappropriate books sit on the shelves of Fisd. After 3 years, only ***TWO*** books have been removed by Fisd. Fisd has moved a handful of books around to other campuses, but sexually explicit books have no place on any classroom or library shelf.

**ACTION:** We need to let the Fisd school board know that we stand behind them in finally removing sexually explicit books. **Please** email them ***today***. *We thank President Trump and Education Secretary McMahon for taking this step in protecting our children from sexualization and indoctrination.*
